

Kings Nympton Primary School

It is a requirement that we publish on the school website our most recent Key Stage 2 results. Due to the small number of pupils within this particular year group, the Department for Education ask that we do not publish this information in order to protect the privacy of individuals.

Similarly, we are also required to have a link to the DfE School's Performance Tables. For years where our numbers are very small we will also not appear within these tables.

If you require any further information about attainment and progress within our school, please do not hesitate to speak to Miss Rowena Hoare, Headteacher.
